ANGULAR | DAY 4 | CLASSWORK

Today you will create a blog, the topic of your blog is up to you.

Your page should have:

- Navigation (a navbar),
- Blog Page,
- About Page and
- Contact Form

The site should be responsive and each blog entry should also have a date&time, the place and when it was made as well as who created the blog entry.

The last step will be deployment. Please deploy your Angular app to your web server.
